

THE
EXECUTIVE
AWARD

HONORING SUSTAINABLE LEADERS

May 2023 release

**IF YOUR BUSINESS MAKES THE WORLD BETTER,
YOU ARE THE ONE.**

HONORING SUSTAINABLE LEADERS

Bestowing prizes upon the leaders who are creating an impact in sustainability & innovation, by respecting TEA Standard set by an outstanding official Jury.

OUR MISSION

We aim to reinforce our legacy and promote our award as a quality standard for the world of today and tomorrow by inspiring people and companies to act in a sustainable way, therefore we strive to increase the impact that our leaders already generate on the planet. We also aim to raise relevant funds with our official non-profit organization United Impact, Partners for a Sustainable world, in collaboration with Institutions.

We are creating the ultimate encounter among those courageous leaders who, despite a volatile, uncertain, complex and ambiguous world, are actually improving the planet through their own business. The award winners embody commitment to a purpose-driven strategy, building businesses that grow and prosper long-term and deliver impact globally in all facets and to all stakeholders.

By awarding individual selected leaders, we aim to highlight their example through emotion-rich storytelling and inspire more people and companies to thrive today from now into the future - at all times, **giving more to the world than they take.**

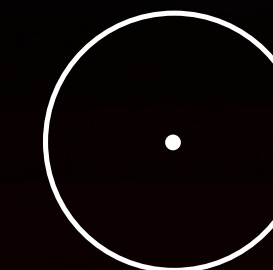

Our Global Jury and National Juries set criteria both globally or in each Nation and select winners in several distinct categories and bestow our prize, that sets the standard for recognizing achievements in sustainability.

The event is targeted toward the contemporary leaders, top-managers and entrepreneurs of today and those of tomorrow (Executives / HNWIs). TEA also aims to enhance networking and top-level public relations and develop business communities.

Inspired by Atlas Statue and waiting for
TEA Global Edition - New York
[September 2025 at Rockefeller Center].

*Enhancing an excellent bridge
of inter-exchange among Nations.*
